

the keypad collection

simplify your life
at the touch of a button

Welcome

Party

You want your new home to be perfect, and you've thought through every detail to make sure it's exactly what you want. The addition of a Vantage system can enable you to truly enjoy your personal paradise.

The Keypad Collection from Vantage enhances not only the capabilities of your system, but also the atmosphere in your home. At the touch of a button, you can alter the feeling in a single room or completely transform your living environment.

elevate your sense
of style

The sophisticated style of the Vantage Keypad Collection enables you to add elegance to any room. Whether you desire an interface that blends with the environment or a keypad that enhances your décor, Vantage offers a multitude of options to complement any design. From contemporary finishes like clear anodized and polished chrome to traditional options like oil-rubbed bronze and classic arctic white, the Vantage collection allows you to personalize your home to suit your sense of style.

Available in three designs and four button styles, the Vantage collection offers unlimited options for personalization and customization, ensuring your system will fit your life and mirror your unique personal style and taste.

Backlighting automatically adjusts based on time of day

Easily see which scene is selected based on backlit button color or intensity

Two-step painting process ensures consistent color definition and reflectivity

Laser-engraved buttons are available with backlighting in any color

Hidden IR functionality allows you to easily select new lighting or music scenes from a remote control

discover the inner beauty

The Vantage Keypad Collection combines an elegant aesthetic with impressive functionality, enabling you to make your home even more beautiful through dramatic, sophisticated lighting scenes.

Each keypad features button backlighting which automatically adjusts to ambient light - allowing you to read and change settings quickly and simply - even in the dark. And the options for designing a lighting scene are limitless - from awakening you in the morning to welcoming you home at night, your Vantage system will function however you wish.

With more than 25 years of experience in the industry, Vantage truly sets the bar for whole-home lighting. Each keypad pairs beautiful form with innovative function, ensuring that your home will look just the way you want it - elegant, sophisticated, and always well-lit.

design the home
of your dreams

Your home is one-of-a-kind, and you've designed it to be a true reflection of your sense of style. The Vantage system offers the same level of flexibility through complete personalization of your keypad selections.

On the next few pages you'll find several keypad design options, paired with some of the most popular interior design styles. Use this guide to spark your creativity. Experience the full range of the Vantage offering, from metallic finishes perfect for contemporary homes to elegant designs ideal for a classic color palette. With Vantage, you can create a system that's just as unique as you are.

traditional

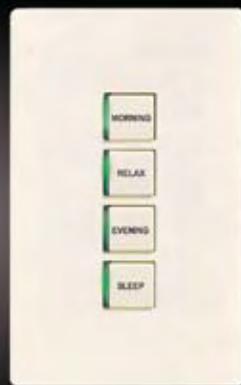

By pairing classic lines with rustic finishes, the traditional style imbues your home with a sense of warmth and luxury. Choose from finish options like oil rubbed bronze and antique ivory, as well as button styles such as RPTouch and FineTouch.

Ivory SquareTouch Buttons

contemporary

With clean lines and bold metallic finishes, the contemporary design elevates the sophistication of your home. Finish options include polished chrome, clear anodized, and glossy black – the perfect complement to your forward-looking style. Complete the look with sleek EasyTouch II buttons for a taste of modern aestheticism.

choose your 1 keypad aesthetics

The Align design employs dramatic right-angles and striking lines for a contemporary, polished finish.

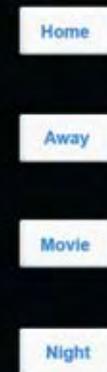

The TrimLine design offers the most versatility, allowing you to select a trim finish that matches or accents your faceplate finish.

With gently sloping edges that blend into the wall, SoftLine is the perfect choice for a classic design style.

select a button 2 style

RPTouch

RPTouch combines functional enhancements like LED backlighting in any color and laser engraving in true-type fonts with an attractive, subtle design aesthetic.

EasyTouch II

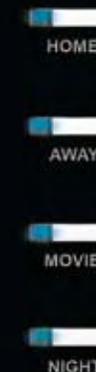

EasyTouch II is available in three or five button configurations. This style employs laser engraving and backlighting available in any color of your choice.

SquareTouch

SquareTouch is the most popular button style. Perfect for traditional and contemporary homes, it offers laser-engraving and blue or green backlighting.

FineTouch

FineTouch buttons are the ideal complement to a classic faceplate option. They offer delicate, subtle styling, along with laser engraving and blue or green backlighting.
